

Sinclair Broadcast Group is just one of many big businesses in this country that are suffocating the very essence of democracy that once existed here. By airing biased coverage disguised in the form of "news" in its "Stolen Honor" cum "A POW Story," Sinclair is misleading people and betraying the very foundation of journalism: unbiased reporting. Democracy is dependent on a well-informed society and achieving that is only possible through unbiased reporting. And corporations such as Sinclair Broadcasting are blatantly disregarding that ideal. They should know better, they should have better morals so as to preserve freedom and the so-called American way, but instead they are corroding it with their efforts to keep the business friendly in power through manipulation. Please, whoever reads this, I urge you, a citizen of this country and a responsible member of its government, to please stop the actions of Sinclair Broadcasting Group and others like it. Please, do something, because if you don't, you will be betraying the people you have sworn to serve.
